**Question 63.2023)** Which of the following is/are NOT aspect(s) of secularization process?

- (A) Privatization of religion
- (B) Rising level of membership of religious organizations
- (C) Loss of social and political influence of religious organizations
- (D) Belief in magic and supernatural forces

**Solution:** The answer is

(B) Rising level of membership of religious organizations

It is NOT an aspect of the secularization process. Secularization typically involves a decline in the influence and participation of religious organizations and institutions in society. This includes a decrease in the number of people actively involved in religious organizations or attending religious services regularly. The other options listed (A, C, and D) are aspects commonly associated with secularization
